A modest amount of funding is available to assist families to defray the costs associated with representing the school.

Parents can make application to the P&C to access this subsidy. The application form must be completed by a parent or carer and submitted to the P&C. Application forms are available in the front office. Assistance will be made available to complete the application form if required.

Teachers may encourage families to apply for the subsidy.

The subsidy will be advertised in the school and P&C newsletters at least once per annum and reference will be made to the subsidy on the P&C page of the school website.

The application will be considered by the Executive members of the P&C Association.

Special, unique or emergent circumstances will be considered by Executive members of the P&C Association.

This representative subsidy is provided for students who have qualified to represent the school. This is different from participating in a school group that is at an event away from the school site. For example, a student might win their way through a public speaking competition and qualify for a state final. This would be representing the school. A student who joins the choir to sing in a massed choir at the Opera House is participating in a school activity off site and would not qualify for the representative subsidy. The Executive Committee of the P&C Association will have the final determination on whether the application is representation or participation.

To be eligible for the subsidy, the following criteria must be met:

- Only students enrolled at Vincentia Public School at the time of representation are eligible to apply for the subsidy;
- Student representation at the event has been approved by the Principal;
- Representation must be at a ‘regional’ level or higher. (This terminology is used despite the realignment of schools into networks); and/or
- Travel must be in excess of 150km (return trip); and
- The maximum subsidy shall be $50 per student per representation. If more than one student from the same family is involved in representation or the same student represents in a variety of events then the maximum subsidy shall be $100 per family in a calendar year.
School Representation Subsidy
